Kosan Phongthanu

Junior UX/UI Designer & Marketing

PROFESSIONAL SUMMARY

An Information Technology senior student blending strong technical development skills with business acumen and UI/UX design thinking. Experienced in building end-to-end web applications that solve real-world operational problems. Seeking an internship opportunity to contribute to and learn from a dynamic development or design team.

EDUCATION

Bangkok University

Expected Graduation: May 2027

B.Sc. in Information Technology
Cumulative GPA: 3.50

SELECTED PROJECTS

Enterprise Inventory & Asset Management System

Senior Project · Thaicom Public Company Limited

- Designed comprehensive UX/UI and prototypes for an enterprise-scale system spanning 113+ screens.
- Established a standardized UI design system for developers to ensure visual consistency.
- Developed a web application covering asset requisition, transfer, disposal, and executive reporting.

Technologies: PHP, Laravel, HTML/CSS, JavaScript, Oracle Database, Figma

POS & Cost/Profit Management System

Sem & Friends (Live Production)

- Built a bespoke Point-of-Sale and cost-tracking web application for a retail food business.
- Engineered automated dashboards reflecting real-time revenue, net profit, and best-selling metrics.
- Currently used in daily operations to optimize inventory ordering and financial tracking.

Technologies: Google Apps Script, Google Sheets API, HTML/CSS, JavaScript

Modern Web Applications (TUNGTUNGTUNGFOOD & GALAXY Store)

Personal Projects

- Developed responsive front-end interfaces prioritizing modern aesthetics and micro-animations.
- Implemented interactive UI components and dynamic data rendering purely with Vanilla JavaScript.

Technologies: HTML5, CSS3, Vanilla JS

WORK EXPERIENCE

Owner & Online Marketing Lead

Present

Sem & Friends (Fried Mala)

- Manage end-to-end daily business operations, inventory, and customer relations.
- Drive online presence and promotional campaigns via LINE OA and social media channels.
