PROFESSIONAL SUMMARY

Senior Information Technology student with skills across Development, UI/UX Design, and Business, applying all three disciplines to build digital software products. Experienced in end-to-end system development with proven real-world business deployment.

EDUCATION

Bangkok University — Expected Graduation: May 2027
B.Sc. in Information Technology · Cumulative GPA: 3.50

SELECTED PROJECTS

Enterprise Inventory & Asset Management System — Senior Project · Thaicom Public Company Limited

- Designed comprehensive UX/UI and prototypes for an enterprise-scale system spanning **113+ screens**.
- Established a standardized UI design system for developers to ensure visual consistency and development speed.
- Developed a web application covering asset requisition, transfer, disposal, and executive-level reporting.

Technologies: PHP, Laravel, HTML/CSS, JavaScript, Oracle Database, Figma

Life & Business Hub — Personal Project · PWA

- Built a full-featured PWA with an AI assistant (Gemini 1.5 Pro API) accepting Thai voice input with multi-turn memory.
- Automated daily sales reports to LINE OA every morning at 9 AM; integrated Gmail OAuth2 & Firebase real-time sync.

Technologies: JavaScript, Firebase Realtime DB, Gemini 1.5 Pro API, LINE Notify API, Chart.js

POS & Cost/Profit Management System — Sem & Friends (Live Production)

- Built a bespoke Point-of-Sale and cost-tracking web application for a retail food business.
- Engineered automated dashboards reflecting real-time revenue, net profit, and best-selling metrics via Google Sheets API.
- Currently used in daily operations to optimize inventory ordering and financial tracking.

Technologies: Google Apps Script, Google Sheets API, HTML/CSS, JavaScript

Food for Everyone — UX/UI & Product Design · Personal Project

- Designed UX/UI and user flows for a food-ordering platform from browsing and cart to order tracking.
- Created wireframes and interactive prototypes in Figma to simulate seamless real-world user experiences.

Tools: Figma

WORK EXPERIENCE

Owner & Online Marketing Lead — 2026 – Present
Sem & Friends (Fried Mala) — Self-Employed

- Developed **MALA POS** to manage orders, ingredient costs, and real-time sales summaries.
- Managed marketing via **LINE OA** with over **300+ followers**, driving promotional campaigns and online orders.
- Managed inventory stock, financial accounting, and daily store operations.

O2O Order Fulfillment Staff (Part-time) — 2025
Makro (CP Axtra)

- Fulfilled online orders and conducted inventory stock checks for store handoff during peak high-volume periods.

Data Entry Staff (Part-time) — Nov 2025
Thailand International Motor Expo

- Entered vehicle specifications and managed visitor customer data accurately and on schedule during peak rush periods and long queues.
