  NCSA · 2026 · 21 hrs
- **Claude 101**
  Anthropic · 2026

WORK EXPERIENCE

Owner & Online Marketing Lead — 2024 – Present

Sem & Friends (Fried Mala) — Self-Employed

- Manage end-to-end daily operations, inventory, and customer relations for a food retail business.
- Drive online presence and promotional campaigns via LINE OA and social media; grew LINE Friends to **300+**.
- Built a custom POS & cost-tracking web app to automate daily revenue, net profit, and best-seller reporting.

O2O Order Fulfillment Staff (Part-time) — 2023

Makro (CP Axtra)

- Processed and fulfilled online-to-offline orders in a high-volume retail environment.

Data Entry Staff (Part-time) — 2023

Thailand International Motor Expo

- Accurately recorded and managed event data under time-pressured conditions.

SELECTED PROJECTS

Enterprise Inventory & Asset Management System — Senior Project

Thaicom Public Company Limited

- Designed UX/UI and prototypes for an enterprise system spanning **113+ screens** with a standardized design system used by the dev team.
- Developed full web application covering asset requisition, transfer, disposal, and executive-level reporting.

Tech: PHP, Laravel, JavaScript, Oracle DB, Figma

Life & Business Hub — Personal · PWA

- Built a full-featured PWA with an AI assistant (Gemini 1.5 Pro) accepting Thai voice input with multi-turn memory; auto-sends daily shop report to LINE OA every morning at 9 AM.
- Integrated Gmail OAuth2, Chart.js analytics, savings goals with progress tracking, and Firebase real-time sync between desktop & mobile.

Tech: JavaScript, Firebase Realtime DB, Gemini 1.5 Pro API, LINE Notify API, Gmail OAuth2, Chart.js

POS & Cost/Profit Management System — Live Production

Sem & Friends — used daily

- Built a bespoke POS and cost-tracking web app; automated dashboards show real-time revenue, net profit, and best-selling items via Google Sheets API.

Tech: Google Apps Script, Google Sheets API, HTML/CSS, JavaScript

Air Canvas & Finger Tracking · GALAXY Store & Samsung Official Store · Food for Everyone (UX) — Personal

- Real-time dual-hand gesture drawing system (21 landmarks/hand) built with Python, OpenCV, and MediaPipe.
- Responsive e-commerce and food-ordering web apps with premium UI, micro-animations, and interactive cart/checkout.

Tech: Python, OpenCV, MediaPipe, HTML5, CSS3, Vanilla JS
