PROFESSIONAL SUMMARY

Senior Information Technology student (GPAX 3.50) specializing in Business Process Analysis, Requirements Gathering, and Enterprise System Workflows & Wireframing (113+ screens). Experienced in bridging the gap between business stakeholders and software development teams, with a strong foundation in IT, databases, and real-world system implementations.

EDUCATION

Bangkok University (School of IT & Innovation) — 4th Year · Expected Graduation: May 2027
B.Sc. in Information Technology · Cumulative GPA: 3.50

SELECTED PROJECTS

Enterprise Inventory & Asset Management System — Senior Project · Thaicom Public Company Limited

- Analyzed AS-IS / TO-BE business processes and gathered functional requirements for enterprise-level inventory management.
- Designed system workflows, wireframes, and interactive prototypes for **113+ screens** covering asset requisition, transfer, and disposal.
- Established a unified UI Design System and collaborated on Oracle DB schema to hand off clear specifications to developers.

Tech Stack: Figma (Wireframing & Prototyping), UML/Flowcharts, Design Systems, Oracle DB, Laravel

POS & Cost/Profit Management System — Sem & Friends (Live Production)

- Analyzed retail restaurant pain points; designed and deployed a custom POS web app for real-time sales and cost/profit tracking.
- Engineered data architecture using Google Sheets API and created automated dashboards reflecting daily business metrics.
- Implemented in daily operations, improving ingredient purchasing accuracy and reducing accounting discrepancies.

Tech Stack: Business Process Mapping, Google Apps Script, Google Sheets API, HTML/CSS, JavaScript

Life & Business Hub — Personal Project · PWA

- Defined functional requirements and user flows for an all-in-one life and business management PWA.
- Configured business logic for automated 9 AM daily sales reporting to LINE OA, integrating Gmail OAuth2 and Firebase sync.
- Integrated AI Assistant (Gemini 1.5 Pro) supporting Thai voice input and multi-turn conversational context.

Tech Stack: System Architecture, Firebase Realtime DB, Gemini 1.5 Pro API, LINE Notify API, Chart.js

WORK EXPERIENCE

Owner & Online Marketing Lead — 2026 – Present
Sem & Friends (Fried Mala) — Self-Employed

- Developed **MALA POS** to manage orders, ingredient costs, and real-time sales summaries.
- Managed marketing via **LINE OA** with over **300+ followers**, driving promotional campaigns and online orders.
- Managed inventory stock, financial accounting, and daily store operations.

O2O Order Fulfillment Staff (Part-time) — 2025
Makro (CP Axtra)

- Fulfilled online orders and conducted inventory stock checks for store handoff during peak high-volume periods.

Data Entry Staff (Part-time) — 2025
Thailand International Motor Expo

- Entered vehicle specifications and managed visitor customer data accurately and on schedule during peak rush periods and long queues.

CERTIFICATIONS & TRAINING

Cybersecurity Foundation Course (21 Hours) — National Cyber Security Agency (NCSA) — March 2026
Claude 101 (Certificate of Completion) — Anthropic — 2026

SKILLS

Business & System Analysis:	Requirements Gathering, Business Process Modeling (AS-IS/TO-BE), User Stories, Flowcharts, UML/DFD, UAT Testing
UI/UX & Wireframing:	Figma, Wireframing, Interactive Prototyping, Design Systems, Information Architecture
Database & Data Tools:	MySQL, Oracle DB, Firebase, Google Sheets (Advanced Formulas / Pivot), Google Apps Script, REST APIs
Tools & Additional Skills:	Digital Marketing, LINE OA Management, Web Development Basics, Jira/Trello Basics
