PROFESSIONAL SUMMARY

4th-year Information Technology student interested in business analysis and requirement gathering — focusing on translating user needs into system workflows and wireframes that development teams can readily implement. Experienced in leading an enterprise project designing 113+ screens, combined with hands-on small business ownership that gives me a clear understanding of both user and business perspectives.

EDUCATION

Bangkok University (School of Information Technology and Innovation) — 4th Year · Expected Graduation: May 2027

Bachelor of Science in Information Technology

SELECTED PROJECTS

Enterprise Inventory & Asset Management System — Senior Project · Thaicom Public Company Limited

- Conducted on-site studies to analyze actual operational workflows (AS-IS) against ideal processes (TO-BE), synthesizing findings into clear system requirements.
- Designed complete workflows, wireframes, and interactive prototypes across **113+ screens** covering asset requisition, receiving, transfer, and disposal.
- Created a UI Design System and helped structure the Oracle DB schema to streamline development handoff for the engineering team.

Tools & Technologies: Figma, UML/Flowchart, Design System, Oracle DB, Laravel

POS & Cost/Profit Management System — Sem & Friends (Live in Business)

- Addressed the restaurant's actual pain point of lacking real-time profit and cost visibility by designing and developing a custom POS system.
- Connected sales data with Google Sheets API and built an automated dashboard to track real-time revenue and top-selling items.
- Used daily in actual store operations, improving ingredient ordering precision and significantly reducing accounting mistakes.

Tools & Technologies: Business Process Mapping, Google Apps Script, Google Sheets API, HTML/CSS, JavaScript

Life & Business Hub — Personal Project · PWA

- Personal project designed to manage both personal life and daily business operations in a single app.
- Built automated logic to deliver daily sales summaries to LINE OA every morning at 9:00 AM, integrated with Gmail OAuth2 and Firebase Real-Time Sync.
- Integrated an AI Assistant (Gemini 1.5 Pro) to support Thai voice commands and conversational context memory.

Tools & Technologies: System Architecture, Firebase Realtime DB, Gemini 1.5 Pro API, LINE Notify API, Chart.js

WORK EXPERIENCE

Owner & Online Marketing Lead — 2026 – Present

Sem & Friends (Fried Mala) — Self-Employed

- Developed the **MALA POS** system in-house to manage daily orders, ingredient costs, and store revenue summaries.
- Managed **LINE OA** with over **300 followers**, handling promotional campaigns and receiving online orders.
- Responsible for inventory stock, revenue/expense bookkeeping, and overall day-to-day operations.

O2O Order Fulfillment Staff (Part-time) — 2025

Makro (CP Axtra)

- Picked online orders and counted inventory stock for timely storefront handover, especially during peak high-order periods.

Data Entry Staff (Part-time) — 2025

Thailand International Motor Expo

- Entered vehicle and visitor customer data accurately and on time, even during peak rush hours and long queues.

CERTIFICATIONS & TRAINING

Cybersecurity Foundation Course (21 Hours) — National Cyber Security Agency (NCSA) — March 2026

Claude 101 (Certificate of Completion) — Anthropic — 2026

SKILLS

Business & System Analysis:	Requirements Gathering, Business Process Modeling (AS-IS/TO-BE), User Stories, Flowcharts, UML/DFD, UAT Testing
UI/UX & Wireframing:	Figma, Wireframing, Interactive Prototyping, Design Systems, Information Architecture
Database & Data Tools:	MySQL, Oracle DB, Firebase, Google Sheets (Advanced Formulas / Pivot), Google Apps Script, REST APIs
Tools & Additional Skills:	Digital Marketing, LINE OA Management, Web Development Basics, Jira/Trello Basics
